A.I. IMMERSIVE METADELIC™ MUSICAL
SEEKING

Executive Producer

A.I. Generated Immersive
Musical Media Experience

Erthiia is set in the near-future where quantum-powered AI threatens human autonomy. This **immersive musical experience** follows Jona, a 21-year-old tech genius. He races to launch **the first Virtual Country: *Erthiia*** before his AI enemies can seize total control of human consciousness.

Using his groundbreaking **NONAGON** technology, Jona works to unite three billion followers within a **shared quantum consciousness**.

He battles A.I. dominance, and confronts existential issues that determine humanity's future, and Jona's personal ability to evolve.

The METADELIC™ Format:
Storytelling, Evolved.

Driving the powerful energy of the *Erthiia* experience is the unique METADELIC™ format, using multiple synchronized video streams mapped onto a matrix of video screens to create a mega high resolution storytelling environment. *Erthiia* will use [54] 96" 4K displays with 450 million pixels under precise creative control.

Concept Render – not to scale.

The Metadelic™ format delivers unique entertainment experiences drawing audiences back to out-of-home venues.

METADELIC™

- = Amplifies impact of AI imagery
- = Unique storytelling experience
- = Accessible, enjoyable, entertaining

Staging & Presentation Budget: \$500K

METADELIC™ Preview System – 24 SCREENS

Objectives:

= Develop Audience for *Erthiia* Trilogy

= Validate METADELIC™ format

= Develop Transmedia Revenues

= Expand Metadelic™ theater chain

= Continue Production for TRILOGY:

PART 2: *BATTLESCAPES*

PART 3: *REGENERATION*

Expanding Market

Erthiia explores profound themes of human identity, environmental sustainability, tech ethics, and intellectual property at a time when audience hunger for meaningful, immersive experiences has reached unprecedented levels. Industry forecasts predict explosive worldwide growth in immersive entertainment, positioning this project at the forefront of a trending Global market.

Erthiia: Development status

- Trilogy: 3 screenplays in 3rd Draft
- 14 original songs, mixed and pre-mastered.
- Production Design Deck
- Developing A.I. production pipelines
- Engineering for METADELIC™ System
- Negotiating venue for 6-week run
- Transmedia Strategy: IP extensions and revenues across gaming, exhibitions, merchandise, education, and digital communities.

The GREENZ – environmental militia

JON 9

WRITER, DIRECTOR
Metadelic™ Programmer
Prompt Master
Immersive Storyteller
Creative Technologist
Immersive Video Artist

Jon 9's innovative approach to storytelling uses a dynamic Metadelic™ matrix of display screens. His proprietary software precisely maps multiple streams of video onto the matrix in real time, creating a visual symphony - engaging, entertaining and thought-provoking.

Jon 9 harnesses his expertise as a GongMaster to explore the positive effects of gong-generated soundfields, incorporating these organic acoustic elements into *Erthiia*'s narrative world. This integration of ancient sound technology represents humanity's capacity to create positive energy systems, in sharp contrast to the story's AI elements.

JA JA

MUSIC DIRECTOR

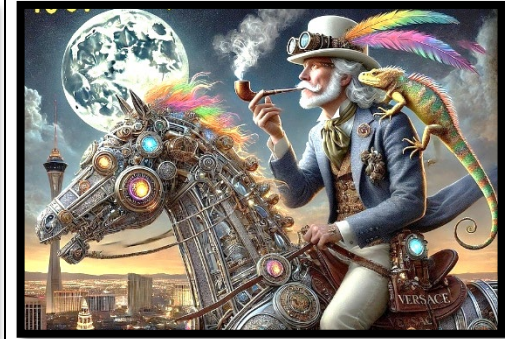

JA JA is a visionary composer, singer, performer and music producer based in Paris, fusing advanced audio production technologies and musical storytelling. As *Erthiia*'s Music Director, she blends original compositions, AI-driven soundscapes, and spatial audio to support and deepen the narrative. Her expertise in adaptive music and experiential sound design pushes the boundaries of storytelling, making *Erthiia* a groundbreaking auditory experience.

SABRI SANSOY

A.I. PRODUCER
PRODUCTION
TECHNOLOGIST
A.I. and Robotics Engineer
Entertainment Technologist

Sabri Sansoy is a pioneering AI engineer and innovative robotics expert with a unique track record of blending artificial intelligence, interactive systems, robotics, and other entertainment technologies. He has led groundbreaking projects across industries, including design of AI- systems for Volkswagen and IBM, competition in BattleBots, and development of new technologies for Sony Pictures and the Game Show Network.

DOC PHINEAS,

DIRECTOR OF VIRTUAL DESIGN

Doc Phineas, a true Renaissance man, brings decades of design mastery to his role as Director of Virtual Design for *Erthiia*, combining expertise and talent in fashion, filmmaking, television, acting, performance, archaeology, and architecture. His unique abilities and multi-cultural perspectives position him to create extraordinary virtual elements and environments for *Erthiia*.

JOB DESCRIPTION – FOR DISCUSSION ONLY

Executive Producer - *Erthiia* Immersive Evolutionary Experience

About *Erthiia*

Erthiia is a groundbreaking AI-driven immersive musical experience utilizing proprietary **Metadelic™** display technology across 54 synchronized screens. Set in a near-future where quantum-powered AI threatens human autonomy, this innovative project balances cutting-edge technology with proven storytelling fundamentals to explore **what it means to be human in the age of AI**.

Role Overview

We are seeking an experienced Executive Producer to lead the production of *Erthiia* from initial Hollywood showcase to global expansion. This visionary leader will oversee all aspects of production, financing, team development, and transmedia strategy implementation for this first-of-its-kind entertainment experience.

Key Responsibilities

- Assemble and lead a high-performing production team across creative, technical, and business functions
- Secure and manage investment capital through private equity, strategic partnerships, and entertainment finance channels
- Develop and oversee the \$1M production budget for the initial 6-week Hollywood showcase

- Negotiate venue contracts, vendor relationships, and talent agreements
- Implement strategic transmedia revenue plan including IP extensions across gaming, exhibitions, merchandise, education, and digital communities
- Oversee development of multi-platform content strategy to maximize audience engagement and revenue potential
- Collaborate with the founding team including Writer/Director Jon 9, Music Director JA JA, AI Producer Sabri Sansoy, and Virtual Design Director Doc Phineas
- Drive business development for future Metadelic™ theater expansion
- Manage production timeline from development through showcase launch

Qualifications

- 7+ years of executive production experience in immersive entertainment, theater, live events, or related fields
- Proven track record of successfully raising capital and managing production budgets
- Strong relationships with entertainment industry investors, venues, and strategic partners
- Experience with transmedia production and IP development
- Understanding of emerging technologies in entertainment, especially AI and immersive experiences
- Exceptional leadership, communication, and negotiation skills

- Entrepreneurial mindset with ability to navigate ambiguity in pioneering entertainment formats

What We Offer

- Equity position in a revolutionary entertainment experience with global expansion potential
- Opportunity to help define a new category of immersive storytelling
- Collaboration with industry innovators across AI, music, and experiential design
- Strategic position at the intersection of technology and entertainment as immersive experiences continue explosive growth

Interested candidates should contact Jon 9 at jon9@meta9.media or 1-323-999-4581.

Erthiia is a production of META9MEDIA llc
